## VYAKUKWATISKA MBEU

Vibungu vyakukwatiska mbeu ni vibenene ngeti njuchi, bulawula na wazoli. Vikwiza pa maluwa na chakulata chakuti vizakamwepo shuga panyake kuzakatolapo ufu wakukwatiskira. Pala vikwenda kufuma pa luwa limoza kuluta pa linyake, vikuyeya shuga na ufu wakukwatiskira mbeu. Ku mbeu izo zikupasa maluwa, ivi vikukhumbikwa chomene kuti mbeu izi zipambike vipaso na mbeu: ndondomeko iyi ndiy yikuchemeka kuti kukwatiska. Kwambula kukwatiska, mbeu zinyake ngeti majungu yangapambika vipaso yayi.

Chithuzi: Zoli yikumwa shuga kufuma ku luwa la nyamundolo.

## NATURAL ENEMIES

Vilwani vya chilengiwa ni vibenene ngeti wabingiza wakupenjapenja, mitatavu, nyerere na masanganavu. Vikulya olo panyake kutayila masumbi ya mu vibungu ngeti wabongololo, magengena, nyinda na vibenene ivyo vikukhala mu mahamba. Kugwiriska ntchito mankhwala ya chizungu yangakoma vilwani vya chilengiwa ivi kweniso na vibungu ivyo vingapangiska kuti suzgo la vibenene liwe lakusuzgilapo chomene mu nyengo zinyake.

Chithuzi: Gulu la nyerere kupenja Kapuchi mu ngoma. @Georg Küstner

## KASI MUNGALIMA ULI KUTI MULIMBIKISKE VIBENENE VIWEMI PA MUNDA WINU?

- Limani mbeu zinandi za mugulu la ntchunga (ntchunga, nyamundolo, nkunde) pa munda pinu kuti mukope vibenene vyakukwatiska na vilwani vya chilengiwa na kuchepeska vibungu ivyo vikunanga mbeu.
- Gwiriskani ntchito nthowa zakupambanapambana zakuchepeskera vibungu pekhapekha apo mphakukhumbikwa ndipo pewani kugwiriska ntchito nthowa izi pa maluwa ya mbeu izo vibenene vyakukwatiska vikwizangapo.
- Gwiriskani ntchito nthowa za chilengiwa zakupambanapambana zakupwelelelera dongo (mwachiyezgelero: kuyala mapekesi, kusazga mbeu za mugulu la ntchunga na ngoma, kuwundira viswaswa vya mugulu la ntchunga mu munda na kuthira manyoba) na chakulata chakuti musazgiremo vundira mu dongo na kwandaniska njuchi na wa bulawula pa munda winu.
- Limani mbeu zinandi izo zikupasa maluwa (mbeu za mugulu la ntchunga na mphanawe) kweniso kufumizgamo thengere ilo likuwa na maluwa yayi pala mwawona kuti nivyambula kukhumbikwa.
- Pewani kudumula vivwati vya makuni ya Milombwa ivyo vikusangika ku chigawa kwinu.

Part of the FARMS4Biodiversity research project, funded through the 2017-2018 Belmont Forum and BiodivERsA joint call for research proposals, under the BiodivScen ERA-Net COFUND programme, and with the funding organisations NSERC, NSF, BMBF and the Norwegian Research Council.
